### A message from the headteacher

What a busy and successful term it has been for Team Rowner! The changes to the personal development curriculum through the introduction of our Commando Joes and emotional well-being curriculum have significantly improved the behaviour, attitudes and personal development of all pupils across the school. Pupils are now much more confident when talking about their feelings and emotions, are able to make improved choices about how to respond to challenges and our exclusions have significantly reduced.

As well as these improvements the quality of education has continued to improve across the school. Pupils are more engaged in their learning and outcomes in writing, maths, project and science have all improved. The team of adults at Rowner have worked tirelessly with ambition to ensure all learners experience success and have a positive experience at school.

I want to take this opportunity to thank you for your continued support and engagement with us. Merry Christmas to you all and a new year full of health and happiness. I look forward to seeing you all in 2020.

### Fundraising

The RUFF team have been very busy this term organising and supporting fundraising events in the school. Our fundraising is used each year to provide a whole school experience; in the past we have visited Longleat, watched Mary Poppins at the theatre, learned circus skills, watched the circus and completed outdoor adventure activities at Moors Valley. This year is just being confirmed and will take place towards the end of May.

### Attendance

Attendance across the school is now above 95%, this is expected attendance and demonstrates an improvement from this time last year. It is really important that all children attend school as much as possible to ensure that their learning is not impacted upon. We understand that when children are unwell, they are not in school. Please ensure you notify the school via phone, email or Facebook to inform of us of the absence and the reason why.

We continue to set ourselves the target of achieving 96% attendance and appreciate your support in ensuring your child is in school.
