

Outdoor Learning

Explore your local environments. Go on nature hunts, colour hunts and wildlife hunts.

PE

Children of this age group should have an hour of exercise a day. Can you support your child to exercise regularly? You could walk together or there are many online workouts available to try too.

Emotion and wellbeing

Ask your child about the best part of their day and why they enjoyed it.

Encourage your child to try new things and praise the effort they put in.

Religious Education

During the spring term, in The Hive we are learning about Christianity. Ask your child what they can tell you about The Parables?

How parents can help their child in The Hive

Here are some ideas to help you support and reinforce your child's learning at home.

Music

Ask your child about their favourite songs and share yours. Listening to calm happy music is also good for our mental wellbeing.

Project

In The Hive we have been learning about The Titanic. Our class read 'Kaspar' by Michael Murpurgo is also linked to our Titanic Project. Ask children about the different menus onboard the ship. Our next project is all about Chocolate!
